

2F Observation Room

50cm Caliber Reflecting Telescope

Enjoy the vivid and mystical images of planets, nebulae and star clusters through our 50cm caliber reflecting telescope. First-magnitude stars and Venus can be observed not only at night but also in the daytime. Please note that depending on the weather, it may be difficult to observe the stars and planets.

1F BF Exhibition Room

Sendai Space Museum is an experience-based astronomy facility that combines an observatory and exhibitions. Once you pass the Ishtar Gate, you are already in outer space.

Marduk's Invitation

Guardian Spirit of Babylon
Marduk will show you around the exhibitions.

Stardust Wall

With our famous gigantic 250 inch screen, you can enjoy gripping images of space.

Solar System Expedition

Enjoy a story full of adventure of an expedition travelling through space with our "Diorama Vision" (a new type of exhibition system combining a diorama and video images).

Space Photo Shoot

Smile and take a photo of yourself in outer space as a memory of your visit!

Constellations and Myths

A story on the 12 ecliptical constellations and Greek myths are told using a digital "kamishibai", a play telling stories using pictures.

A Message from Atlas

He will guess your zodiac sign.

Shuffle Star

A picture matching game of constellations and a space mission game can be played here. Will you be able to finish the game within the time limit? Try and find out!

Ishtar Card

Ishtar Gate
You can register your birth date on the Ishtar card handed out at the reception desk.

Star Newsletter

Browse the internet and visit websites related to space facilities.

Mysteries of the Stars

Dive into a sea of information by reading the star encyclopedia and solving quizzes here.

Over the Galaxy

Take a trip around the solar system on a bicycle.

Ending Gate

You can receive a summarized sheet of today's visit.

2F Celestial Observation Room

Starlit night can be enjoyed from our observation room with a sliding roof.

A great view of the city also can be overlooked from the observatory.

Map of the Facility

BF Experience-based Exhibition

Learn about space while having fun.
